WRIST/SCORE

# SCORE PADEL FROM YOUR APPLE WATCH

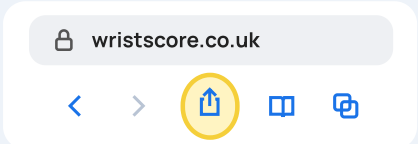

No App Store download, nothing to install on your Watch. Set it up once in two minutes, then score every point from your wrist.

**Point your iPhone camera here**

or type wristscore.co.uk

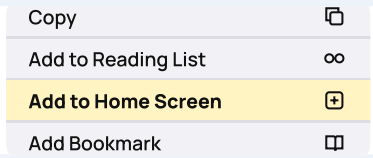

## SET UP ONCE on your iPhone

### 1 Open the link in Safari

Scan the code above with the **Camera** app and tap the link, or type **wristscore.co.uk** into **Safari**.

### 2 Add it to your Home Screen

Tap the **Share** button (square with an arrow), scroll down, tap **Add to Home Screen**, then **Add**.

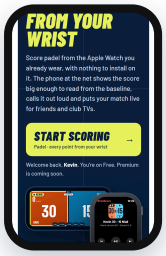

### 3 Open it and create your account

Open **WristScore** from your Home Screen and create your free account (just once). Always open it from there, not from Safari.

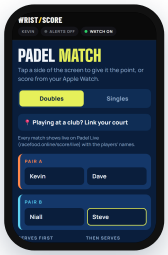

## EVERY MATCH about 30 seconds

### 4 Tap Start scoring

This turns on the Watch controls. The **Watch on** light at the top goes green.

### 5 Tap Match, pick doubles or singles

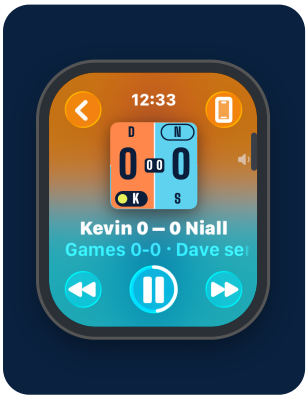

Type the names, pick who serves first, then tap **Start match**. At a club? **Link your court** first (page 2).

### 6 Play! Tap the side that won the point

Turn your phone sideways for the big scoreboard, or use your Watch (below). Mistake? Tap **Undo**. Changed ends? Tap ⇄ **Ends**.

## ON YOUR APPLE WATCH

### Find the score

1. With WristScore open on your iPhone, open the **Now Playing** app on your Watch.
2. You'll see one team on the left, one on the right, and a ball next to the server.
3. The first time, it asks you to press the **left button**. Do that once.
4. **Tip:** turn on **Auto-Launch Audio Apps** (Watch app on iPhone, search "Auto-Launch") and it opens by itself.

### The three buttons

- ◀ **Left button: point to the team on the left**
- ▶ **Right button: point to the team on the right**
- ⏯ **Undo. Before the first point, it swaps sides**

After each set the Watch asks **Swap ends?** Left is yes, right is no. Changed ends at another time? Tap ⇄ **Ends** on your phone so the buttons follow.

## GOOD TO KNOW

**Let friends follow**

A **Code** (e.g. 8530) shows on your scoreboard. Friends tap **Match** in WristScore, enter it and tap **Join** to follow live.

**No music on that phone**

If music plays on the same iPhone, the Watch buttons control the music instead of the score.

**Hear the score**

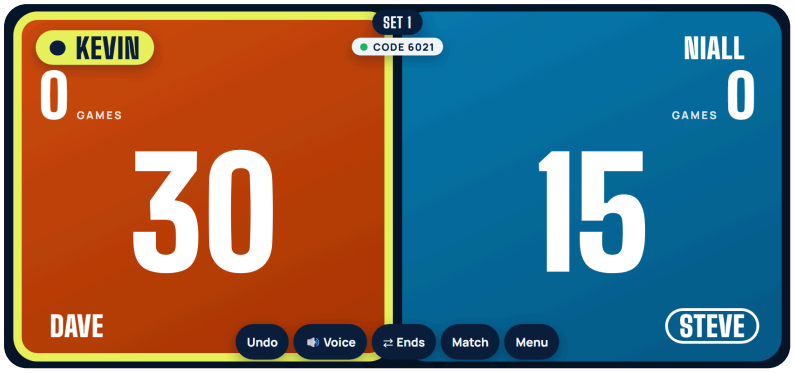

Tap **Voice** on the scoreboard. It uses your iPhone's own voice, so it works in aeroplane mode.

**Watch not updating?**

Open WristScore on your iPhone. If the top says **Watch paused**, tap it to reconnect.

# READING THE SCORE, AND GETTING MORE FROM IT

## WHO'S SERVING? on your phone

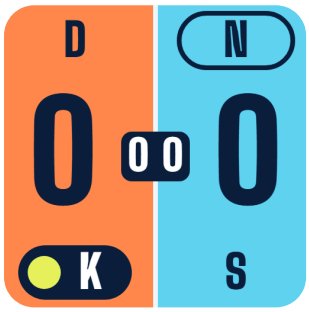

**Frame** The team serving has a **yellow frame** around its half.

**Names** Each player's **name sits in the corner** where they're standing, and moves as they do.

**Kevin** The **yellow name** is the server. It pops when the serve changes.

**Steve** The **ringed name** is the receiver. Games sit under the top name on each side.

## WHO'S SERVING? on your Watch

**Ball** The **dark pill with the ball** is the server, in the box they serve from.

**Ring** The **dark ring** is the receiver, in the opposite corner.

**0 0** The **small box on the net** is games won. A dot under it is a set won.

**Text** The words under the picture also say who serves and from which side.

## BEFORE YOU PLAY

### Pick your sides

Make the screen match the court. Press ⏯ on your Watch, or tap **Swap sides** on your phone, until each team is on the correct side. Once the first point is played, ⏯ goes back to undo.

### When you change ends

On the **Match** screen, **Change ends** is **After each set**, or **After odd games** to follow the official rules (games 1, 3, 5… and every 6 tie-break points). The Watch asks each time. Changed ends without being asked? Tap ⇄ **Ends** on the phone.

### Playing at a club

Scan the QR code on your court, or tap **Link your court** on the Match screen. Tick to show your score on the club TV. Every match is on **Padel Live** (wristscore.co.uk/live) for friends anywhere.

## FIXING THINGS

| | |
|---|---|
| **Wrong team scored** | Press ⏯ on the Watch or tap **Undo**. Every point going the wrong way? You've changed ends: tap ⇄ **Ends** on the phone. Still reversed? Tap **Match**, then **Set them up again**. |
| **Phone sideways** | Tap **Menu** at the bottom of the scoreboard for Sign in and Alerts. Tap it again to hide them. |
| **Voice sounds robotic** | Download a British **Enhanced** or **Premium** voice: iPhone Settings › Accessibility › Spoken Content › Voices › English. Then choose it under **Voice** on the **Match** screen. |
| **Nothing on Watch** | Open WristScore from the icon and tap **Padel**. Check the top says **Watch on**, and that no music or other audio app is playing on the iPhone. |
| **Watch paused** | Tap those words on your iPhone to reconnect. |

## WRISTSCORE PREMIUM coming soon, £10 a year

### Early access

1. Sign in to your free account: tap your name at the top of the app.
2. Open the **Premium** tab.
3. Enter your early-access code and tap **Activate premium**.
4. On the Match screen, choose who you are under **You are**, so your stats follow you.

Stay signed in on the phone that keeps score. Matches played with no signal upload later.

### What you get
